

Andrés Eduardo Peña Gutierrez

Junior Data Analyst | Electronic Engineer | Support Engineer | Junior Developer

www.linkedin.com/in/andres-pena-914a6a146 | (+57) [REDACTED] | [REDACTED]@gmail.com | Bogotá, Colombia

PROFESSIONAL PROFILE

Recently graduated Electronic Engineer with technical, technological, and professional training. Specialized in electronic circuit design, software development, and communication networks. Knowledgeable in cybersecurity, communication protocols (TCP/IP, MQTT), embedded systems, Linux, and programming languages such as Python, C++, Java, JavaScript, C#, and SQL. Focused on developing scalable solutions, analyzing technical and operational information for decision-making, process optimization, and solving complex problems. Strong abilities in teamwork, adaptability to dynamic environments, and continuous learning.

TECHNICAL SKILLS

Programming: C++ | Python | Java | JavaScript | Assembly | COBOL | C# | PHP | HTML5 | CSS3 | SQL | .Net | React

Software & Platforms: Power BI | Excel (Intermediate) | GLPI | AutoCAD | Microsoft Office | MySQL | Visual Studio Code | Proteus | Power Platform Fundamentals | Git | GitHub | Linux | Windows Server | Visual Studio | Raspberry Pi OS | XAMPP

Design & Simulation: CircuitMaker | Altium | MATLAB | Arduino | Multisim | Thonny | Proteus

Networking & Communication: TCP/IP | MQTT | HTTP | Modbus | RS485 | RS232 Firmware

Development: C for microcontrollers | Arduino | PlatformIO

SOFT SKILLS

Problem solving | Effective communication | Decision making | Results-oriented | Innovation | Teamwork | Critical thinking | Adaptability | Leadership

WORK EXPERIENCE

Technical Support Engineer - Sigma Electronica Ltda. (Feb 2024 - Dec 2024)

- Handled warranty requests and created detailed technical reports
- Provided technical assistance and website support
- Designed PCBs, soldered SMD components, and assembled electronic boards
- Performed preventive and corrective maintenance
- Trained clients and delivered post-sale support
- Achievements: Improved warranty coordination efficiency by 25%, reduced technical response time by 50%, and enhanced production precision by 98%

Junior Support Technician - WM Wireless and Mobile (Aug 2022 - Sep 2023)

- Managed warranties, performed maintenance, and prepared equipment
- Configured and programmed devices
- Achievements: Reduced warranty response time by 30%, achieved 95% maintenance effectiveness

Help Desk Agent - Thomas Greg & Sons de Colombia S.A.S. (Jan 2022 - Jun 2022)

- Managed service requests via phone, email, and ticketing systems
- Documented incidents using GLPI
- Prioritized issues based on urgency and type
- Provided first-level support and ensured SLA compliance
- Used remote tools like TeamViewer, AnyDesk, Remote Desktop
- Achievements: Resolved 30% of issues without escalation, improved documentation accuracy by 20%, maintained SLA compliance in 90% of cases

EDUCATION

Professional Certificate Subscription: Google Data Analytics | In progress | Coursera | 2025

Cybersecurity Intro Course | Cisco Networking Academy | 2025

B.Sc. in Electronic Engineering | CUN | Bogota D.C. | 2024

Technologist in Electronics | CUN | Bogota D.C. | 2023

Intro to Python Programming | Cafam | 40h | 2023

Power BI Dashboards Course | Cafam | 40h | 2023

Technical Degree in Electronic Maintenance | CUN | 2022

Diploma in Engineering Project Design | CUN | 120h | 2021

LANGUAGES

Native Spanish | English B1
